

Table of contents (alphabetically by author's name)

Paper 1.	9
The Application of Barkhausen Noise to Improve the Understanding of Surface Quality in Marine Gearing	
<i>I. Atkins, B.A. Shaw*</i> , <i>M. Benson*</i> and <i>K. Brimble</i> - Ministry of Defence (Navy) Foxhill, Bath, UK., *Design Unit Department of Mechanical Materials and Manufacturing Engineering University of Newcastle upon Tyne, U.K.	
Paper 2.	19
Modelling with FEM and Evaluation with Barkhausen Effect of Residual Stress in Welded Carbon Steel Plate	
<i>B. Augustyniak, W. Kielczynski, M. Chmielewski</i> , - Department of Technical Physics and Applied Mathematics, Technical University of Gdansk, Poland	
Paper 3.	27
Evaluation of residual stress distribution maps in shipyard sheets with Barkhausen effect non-contact probe	
<i>B. Augustyniak, M. Chmielewski, J. Siecinski</i> - Department of Technical Physics and Applied Mathematics, Technical University of Gdansk, Poland	
Paper 4.	37
Grindability of various types of HSS steels for spiral drills.	
<i>W. Bohlheim</i> - De Beers, <i>H. Schweiger</i> - Böhler AG, Germany <i>A.S. Wojtas</i> - Stresstech Oy, Jyvaskyla, Finland	
Paper 5.	53
The Barkhausen noise inspection method for detecting grinding damage in gears	
<i>J.S. Ceurter</i> - American Stress Technologies Inc., USA <i>C. Smith, R. Ott</i> - Harley-Davidson Motor Company, USA	
Paper 6.	65
Follow-up of the Barkhausen Noise signal on bearings after operation	
<i>S. Desvaux, J. Gualandri, H. Carrerot</i> - SNFA, Department Material et Advanced Technics, Valenciennes, France I.E.M.N, Department Opto-Acousto-Electronic, University of Valenciennes, France	

- Paper 7. 79
Characterisation of the STRESSONIC® shot peening by Barkhausen Noise measurements and X ray diffraction measurements.
A. Dugeon – SONATS, Nantes, France
- Paper 8. 91
Residual Stress Evaluation in Welded Steel Tubes using Barkhausen Noise
Mari Lindgren, Toivo Lepistö - Tampere University of Technology
P.O.Box 589, 33101 Tampere, Finland
- Paper 9. 101
Determination of Hardness and Residual Stresses Depth Profiles using Micromagnetic Techniques
T. Mandrysch - Institute Of Production Engineering And Machine Tools (IFW)
Hannover, Germany
- Paper 10. 115
Micromagnetic Quality Assurance of Metal Sheets
H.K. Tönshoff, I. Oberbeck-Spintig, H. Seegers - Institut für Fertigungstechnik und
Spanende Werkzeugmaschinen, Hannover, Germany
- Paper 11. 129
Calibration of the Barkhausen Noise Method as a Tool for Assessing the Surface Integrity of Gear Steels.
B.A. Shaw, M. Benson, D.A. Hofmann - Design Unit, University of Newcastle,
Newcastle Upon Tyne, UK
C. Matharu - DERA, Pyestock, Farnborough, UK.
- Poster 1. 141
Determination of Residual Stresses after Heat Treating and Grinding by Means of the Magnetic Barkhausen Noise
*Janez Grum**, *Pavle Žerovnik** *Dušan Fefer*** - * Faculty of Mechanical Engineering,
Slovenia, ** Faculty of Electrical Engineering, Slovenia
