

Table of Contents

I Papers

Use of Barkhausen Noise for Grinding Quality Control of Scania Camshafts	11
<i>M. Söderholm</i> - Scania CV AB, Sweden	
Barkhausen Noise Integration for the Industrial Control of Thermochemical Treatments	25
<i>H. Carrerot, S. Desvaux, J. Gualandri</i> - SNFA, Department Material and Advanced Technics, France	
Load Sharing in Duplex Stainless Steels Determined by Barkhausen Noise	33
<i>I. Virkkunen, H. Gripenberg</i> - Helsinki University of Technology, Laboratory of Engineering Materials, Finland	
<i>H. Hänninen</i> - Institute for Advanced Materials, Joint Research Centre Petten Site, Finland	
<i>M. Vilpas</i> - VTT Manufacturing Technology, Finland	
Micromagnetic Material Characterisation after Forming Operations	43
<i>H. K. Tönshoff, T. Friemuth, H. Seegers</i> - Institute of Production Engineering and Machine Tools, University of Hannover, Germany	
Utilization of the Barkhausen Effect for the Quality Assessment of Fe-Si Plates for Electrotechnics and for Measurement of the Surface Hardness of Welded Joints of C-Mn-Nb Steel Grades	55
<i>V. Ochodek, V. Styskala</i> - VŠB Technical University of Ostrava, Czech Republic	
Evaluation of Heat treatment and Deformation Induced Changes in Material Properties in Gear Steels Using Magnetic Barkhausen Noise Analysis	63
<i>V. Moorthy</i> - Indira Gandhi Centre for Atomic Research, Kalpakkam, India. (Currently Visiting Scientist at Design Unit, University of Newcastle, UK)	
<i>B.A. Shaw</i> - Design Unit, University of Newcastle, Newcastle upon Tyne, UK	
<i>K. Brimble and I. Atkins</i> - Warship Support Agency, Ministry of Defence, Bath, UK	
Estimation of Biaxial Residual Stress in Welded Steel Tubes by Barkhausen Noise Measurements	85
<i>M. Lindgren, T. Lepistö</i> - Institute of Materials Science, Tampere University of Technology, Finland	
Barkhausen Noise Measurement in Quality Control and Grinding Process Optimisation in Small Batch Carburized Steel Gear Grinding	93
<i>J. Posa</i> - Metso Drives Oy, Karkkila, Finland	

- Residual stress full state evaluation at welded plates using Barkhausen effect: modelling and experiment** 113
Dr Ing. W. Kielczynski, Dr B. Augustyniak, Dr Ing. M. Chmielewski - Technical University of Gdansk, Poland
- Quality Control in Profile Grinding of Large Gears Using Micromagnetic Techniques** 125
H. K. Tönshoff, T. Mandrysch - Institute of Production Engineering and Machine Tools, University of Hannover, Germany
- Analysis of Power of a Captured Barkhausen Noise Signal in the Frequency Domain of Structural Steel Fe360-B** 143
J. Grum, B. Pecnik - Faculty of Mechanical Engineering, Ljubljana, Slovenia
D. Fefer - Faculty of Electrical Engineering, Ljubljana, Slovenia
- II Posters**
- Residual Stress Evaluation in Helicopter Gears Through Barkhausen Noise Measurement** 151
O. Buzzetti - INFM, c/o Università degli Studi di Trento, Dipartimento di Fisica, Facoltà di Scienze FF.MM.NN., Italy
L.G. Merletti, M. Fusari, R. Pezzoni - AGUSTA, Advanced Materials and Processes Laboratory, NDT Central Unit., Italy
- Assessment of Various Heat Treated Steel C45E Based on Captured Magnetization Curves** 157
J. Grum, P. Žerovnik - Faculty of Mechanical Engineering, Ljubljana, Slovenia
- Barkhausen Noise Study of Soft Magnetic Composites** 169
I.P. Gilbert, S.J. Bull, J.T. Evans - Department of Mechanical, Materials and Manufacturing Engineering, University of Newcastle, Newcastle upon Tyne, UK.
V. Moorthy - Indira Gandhi Centre for Atomic Research, Kalpakkam, India (Currently Visiting Scientist at Design Unit, University of Newcastle, UK)
B.A. Shaw - Design Unit, University of Newcastle, Newcastle upon Tyne, UK.
- Invariant Method of Stabilising the Number of Barkhausen Pulses Obtained from Digital Analysis** 175
J. Kwasniewski - University of Mining and Metallurgy in Cracow, Department of Rope Transport, Poland
- Effect of Prestraining on Barkhausen Noise vs. Stress Relation** 185
M. Lindgren, T. Lepistö - Institute of Materials Science, Tampere University of Technology, Finland

Barkhausen and Micromagnetic Measurements and Analysis in Irradiated Specimens	193
<i>E. Czoboly, M. Horvát, G. Uri</i> - AEKI Atomic Energy Research Institute, Budapest, Hungary <i>S. Pirfo, L. Debarberis</i> - Joint Research Centre of the European Commission, IAM, Petten, The Netherlands	
Evaluation of Steel Quality Using Magnetoacoustic Emission and the Magnetic and Mechanical Barkhausen Effect	205
<i>B. Augustyniak, M. Chmielewski, L. Piotrowski, M. Glowacka</i> - Technical University of Gdansk, Gdansk, Poland <i>M. Sablik</i> - Southwest Research Institute, San Antonio, USA	
A Study on Material Deformation at the Crack Tip of a Carbon Steel Pipe Using Barkhausen Noise Analysis	217
<i>H. N. Singh, A. B. Tamhane, R. S. Sriwastaw, V. K. Madan, K. C. Sahoo</i> - Bhabha Atomic Research Centre, Mumbai, India	
List of Authors and Participants	227
