### I Papers

<b>The Application of Magnetic Barkhausen Noise for Assessment of Contact Fatigue Damage in Gears</b>	9
<i>V. Moorthy<sup>1</sup>, B.A. Shaw<sup>1</sup>, W. Bennett<sup>2</sup>, P. Hopkins<sup>2</sup></i>	
<sup>1</sup> Design Unit, University of Newcastle Upon Tyne, UK	
<sup>2</sup> Ministry of Defence (Navy), Bristol, UK	
<b>Toward an Estimation of the Carburised Case Depth by an Inverse Method</b>	13
<i>Nicolas Buiron<sup>1</sup>, Thi Minh Tu Bui<sup>1</sup>, Patrice Simard<sup>1</sup>, Fan Zhang<sup>2</sup></i>	
<sup>1</sup> Laboratoire Roberval Université de Technologie de Compiègne, France	
<sup>2</sup> Pole ICM CETIM Senlis, France	
<b>Residual Stresses In Hardened AISI H13 Steel After High Speed Machining</b>	23
<i>M. Maru<sup>1</sup>, R. Machado<sup>1</sup>, C.A. Achete<sup>1,2</sup>, R.P. Zeilmann<sup>3</sup>, J.R. Oliveira<sup>3</sup>, H.F. Cogorni<sup>3</sup>, F.P. Missell<sup>1,3</sup>, L.R. Padovese<sup>4</sup>, R.M. Fix<sup>5</sup></i>	
<sup>1</sup> Instituto Nacional de Metrologia, Normalização e Qualidade Industrial – INMETRO, Duque de Caxias, RJ, Barzil	
<sup>2</sup> Universidade Federal do Rio de Janeiro - UFRJ	
<sup>3</sup> Universidade de Caxias do Sul, Caxias do Sul, RS, Brazil	
<sup>4</sup> Universidade de São Paulo - USP	
<sup>5</sup> American Stress Technologies, Cheswick, PA, USA	
<b>Magnetoacoustic properties of creep damaged P91 alloy</b>	35
<i>B. Augustyniak<sup>1</sup>, L. Piotrowski<sup>1</sup>, M. Chmielewski<sup>1</sup>, Z. L. Kowalewski<sup>2</sup></i>	
<sup>1</sup> Gdansk University of Technology, Physics Department, 80-952, Gdansk, Poland	
<sup>2</sup> Institute of Fundamental Technological Research, Polish Academy of Science, Warsaw, Poland	
<b>Study of Multiphase Materials by Means of Barkhausen Noise Measurements</b>	45
<i>X. Kleber, A. Hug and J. Merlin – MATEIS, INSA-Lyon, France</i>	
<b>Residual Stress Evaluation In Spirally Welded Pipes For Gas Pipeline</b>	55
<i>V. Ochodek – VŠB-Technical University of Ostrava</i>	
<b>On Verification of Magnetic Field Simulations of a Barkhausen Noise Sensor</b>	67
<i>M. Hakanen – Stresstech Oy, Vaajakoski, Finland</i>	
<b>Characterisation of Dual-Phase Steels by Magnetic Barkhausen Noise Method</b>	77
<i>M. Kaplan<sup>1</sup>, C. H. Gür<sup>1</sup>, M. Erdoğan<sup>2</sup></i>	
<sup>1</sup> Middle East Technical Univ. Metallurgical and Materials Eng. Dept., Ankara, Turkey	
<sup>2</sup> GAZI Univ. Technical Education Faculty Metal Education Dept., Ankara, Turkey	
<b>Using Barkhausen Noise Analysis for Process and Quality Control in the Production of Gears</b>	85
<i>S. J. Kendrish, T.J. Rickert, R.M. Fix – American Stress Technologies, Cheswick, PA, USA</i>	
<b>Assessment of Depth of Grinding Damage on Gear Teeth Using Magnetic Barkhausen Noise Measurements</b>	93
<i>V. Moorthy<sup>1</sup>, B.A. Shaw<sup>1</sup>, W. Bennett<sup>2</sup>, P. Hopkins<sup>2</sup></i>	
<sup>1</sup> Design Unit, University of Newcastle Upon Tyne, UK	
<sup>2</sup> Ministry of Defence (Navy), Bristol, UK	

## II Posters

- Assessment of Residual Stress in Electric Power Turbine Blades with Barkhausen Effect** 97  
*B. Augustyniak<sup>1</sup>, M. Chmielewski<sup>1</sup>, L. Piotrowski<sup>1</sup>, A. Malec<sup>2</sup>, M. Miscicki<sup>2</sup>*  
<sup>1</sup> Gdansk University of Technology, Physics Department, 80-952, Gdansk, Poland  
<sup>2</sup> ALSTOM Power, 82-300 Elblag, Poland
- Magnetic Barkhausen Technique Applied to the Characterization of As-Cast Model Steels with Parametric Variation of Ni, Mn, Si and Cr Content** 105  
*J. Degmová<sup>1,2</sup>, L. Debarberis<sup>1</sup>*  
<sup>1</sup> JRC-IE, Joint Research Centre, Institute for Energy, P.O. Box 2, Petten 1755 ZG, The Netherlands  
<sup>2</sup> Department of Nuclear Physics and Technology, Faculty of Electrical Engineering and Information Technology, Slovak University of Technology, Ilkovičova 3, 812 19 Bratislava, Slovakia
- Investigating The Efficiency Of Magnetic Barkhausen Noise Method For Determining Average Grain Size Of Steels** 113  
*K. Davut, C.H. Gür – Middle East Technical University, Metallurgical and Materials Engineering Department*
- Non-Destructive Characterisation Of Spheroidised AISI 1060 Steel By Magnetic Barkhausen Noise Measurements** 123  
*K. Davut, S. Bayramoglu, G. Gürer, C.H. Gür – Middle East Technical University, Metallurgical and Materials Engineering Department*
