

Table of Contents

Manufacturing Quality and In-Service Damage

MBE and Micromagnetic Techniques for Assessment of Quality of Fabricated Components and Assessment of In-service Degradation

G. Dobmann

Fraunhofer IZFP, Saarbrücken, Germany

Grinding Damage Detection in Gears and Bearing Balls using Magnetic Barkhausen Noise Technique

B. A. Shaw, V. Moorthy

Design Unit, Newcastle University, UK

Microstructural Characterisation

Microstructural Characterization and Mechanical Property Evaluation by Micro-Magnetic Techniques

T. Jayakumar, S. Vaidyanathan, B. Raj

Metallurgy and Material Group, Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Analysis of Barkhausen Noise Activity and Hysteresis Loop on Cold-rolled and Thermally Aged Fe-Cu Model Alloy

H. Kikuchi, T. Takahashi, K. Ara, Y. Kamada, S. Kobayashi

NDE and SR-Center, Faculty of Engineering, Iwate University, Japan

Barkhausen Noise and Magneto Acoustic Emission in Fe-Cu Alloy

M. I. López Pumarega^{1,2}, D. N. Torres¹, N. Núñez¹, M. P. Gómez^{1,3}, M. Armeite¹, J. E. Ruzzante^{1,2,3}

¹Comisión Nacional de Energía Atómica, Argentina

²Universidad Nacional de San Martín, Argentina

³Universidad Tecnológica Nacional, Facultad Regional Delta, Argentina

Precipitation Kinetics Study of Thermally Aged Maraging Steel Using Magnetic Barkhausen Emission Technique

S. Palit Sagar, N. Parida, A. Mitra

Materials Science & Technology Division, National Metallurgical Laboratory, Jamshedpur, India

Barkhausen Noise Measurement for Characterization of Low Alloy Carbon Steel Components

*H. N. Singh, K. S. Balakrishnan, P. K. Shah, R. S. Shrivastaw, S. Anantharaman and K. C. Sahoo**

Post Irradiation Examination Division, Bhabha Atomic Research Centre, Mumbai, India, *Raja Ramanna Fellow

Characterisation of Material Properties

Magnetic Barkhausen Emissions: A Tool to Study Creep Damage in Steel

A. Mitra, A.K. Panda, J.N. Mohapatra

Materials Science & Technology Division, National Metallurgical Laboratory, Jamshedpur, India

Assesment of Fatigue Damage in Aircraft Landing Gears Using Magnetic Barkhausen Emission Technique

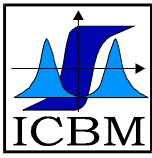

T. Jayakumar, S. Mahadevan, S. Vaidyanathan, S. Arunkumar, G.K. Sharma, T. Saravanan, B.P.C. Rao, B. Raj

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Evaluation of Mechanical Properties of M250 Maraging Steel Using Magnetic Barkhausen Emission Analysis

K.V. Rajkumar, S. Vaidyanathan, W. Sharatchandra Singh, B.P.C. Rao, T. Jayakumar, B. Raj

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Industrial Applications

Magnetic Barkhausen Emission Technique for Evaluation of Case-depth of Gears

V. Moorthy, B.A. Shaw

Design Unit, Newcastle University, UK

The Use of Barkhausen Noise to Detect The Case-Depth of Induction Hardened Samples

S. Santa-aho¹, J. Hakalahti¹, M. Vippola¹, T. Lepistö¹, M. Lindgren², M. Hakanen³

¹Department of Materials Science, Tampere University of Technology, Finland

²Outotec Research Oy, Pori, Finland

³Stresstech Oy, Vaajakoski, Finland

Possibilities and Difficulties of NDE Evaluation of Irradiation Degradation

F. Gillemot, S. Pirfo Barroso

Applied Structural Integrity Llc., Olvasztar, Hungary

Barkhausen Noise in Shipboard Applications

P. Misra

Mercantile Marine Department, Chennai, India

Recent Trends

Investigation of Structural Modifications in Ferromagnetic Materials by Magnetic Adaptive Testing

Ivan Tomáš¹, Jana Kadlecová¹, Gábor Vértesy² and Břetislav Skrbek³

¹Institute of Physics, ASCR, Praha, Czech Republic

²Research Institute for Technical Physics and Materials Science, Budapest, Hungary

³Technical University of Liberec, Czech Republic

Multi-Parametric Approach for Assessment of Ageing of Heat Treated Maraging Steel

A. Viswanath, B.P.C. Rao, K.V. Rajkumar, T. Jayakumar, B. Raj

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Dynamic Multiple Parameter Measurements with Barkhausen Noise Equipment

M. Laakkonen, L. Suominen

Stresstech Oy, Vaajakoski, Finland

Automated Evaluation of Hardness of Ultra High Strength Steels Using Magnetic Barkhausen Emission and Radial Basis Function neural Networks

B. Sasi, C.K. Mukhopadhyay, S. Thirunavukkarasu, M.M. Narayanan, B.P.C. Rao, T. Jayakumar

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Stochastic Fractal Behaviour of Magnetic Barkhausen Emission Signals

M. Tarafder, S.K. Das, I. Chattoraj, A. Mitra

National Metallurgical Laboratory, Jamshedpur, India

Evaluation of Residual Stresses

Simultaneous Prediction of Residual Stress and Hardness from Barkhausen Noise Signal

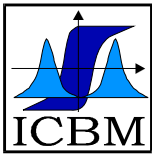

A. Sorsa, K. Leiviskä

University of Oulu, Finland

Existing Stress Assessment Using Barkhausen Noise Technique

K.Kesavan, S.Parivallal, K.Ravisankar

Structural Engineering Research Centre, Council of Scientific and Industrial Research, Chennai, India

8th International Conference on Barkhausen Noise and Micromagnetic Testing
February 11-12, 2010,
Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Prediction of Residual Stress Using Micro-Magnetic Properties in High Speed Grinding

M. Vashista¹, S. Paul²

¹Institute of Technology, Banaras Hindu University, India

²Indian Institute of Technology Kharagpur, India

Residual Stress Measurement in Aircraft Components: A Study Using Magnetic Barkhausen Noise

G.V.S. Murthy, J.N. Mohapatro, B. Ravikmar, A.K. Panda, A. Mitra, S.R. Singh

National Metallurgical Laboratory, Jamshedpur, India

Determination of Residual Stresses on Carbon Steel Weldments Using Magnetic Barkhausen Emission and X-ray Diffraction

K.V. Rajkumar, C.K. Mukhopadhyay, S. Murugan, B.P.C. Rao, T. Jayakumar

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Engineering Case Studies

Benchmarking of Residual Stress from the Point of the Boiler Tube Integrity; a Typical Case Study

P. Sampathkumaran, M. Janardhana, R.K. Kumar, M. Venkateswara Rao, J. Balakrishna Sake, S. Seetharamu

Materials Technology Division, Central Power Research Institute, Bangalore, India

Estimation of Magnetic Properties in Nickel Base Hardfacing Alloy Deposit

G. Chakrabortya, V. Ramasubbua, S.K. Alberta, A.K. Bhaduria, N. Thirumuruganb, A. Bharathib

Indira Gandhi Centre for Atomic Research, Kalpakkam, India

Evaluation of Residual Stresses on Cold-Drawn Prestressed Wire Using Barkhausen Noise Technique

K. Kesavan, S. Parivallal, B.Arun Sundaram, A.K. Farvaze Ahmed, K. Ravisankar

Structural Engineering Research Centre, Council of Scientific and Industrial Research, Chennai, India

Non Destructive Approach to Study the Damage Potential of Turbine Components, a Typical Case Study

P. Sampathkumaran, M. Janardhana, R. K. Kumar, M. Venkateswara Rao, V. Raghavendra, S. Seetharamu

Materials Technology Division, Central Power Research Institute, Bangalore, India
