

Table of Contents

A New Method for Assessment of Residual Stresses in Reinforced Surface Layers <i>J. Pokluda¹, M. Kianicová²</i> ¹ Brno University of Technology, Czech Republic ² Alexander Dubček University in Trenčín, Slovak Republic	9
Plane crashes and the possibility of forestalling them <i>J. Švejcár, A. Pištěk</i> Brno University of Technology	15
Quantitative Non-Destructive Indication of Decarburized Surface Layers on Steel Products <i>I. Tomáš¹, J. Kadlecová¹, O. Perevertov¹, B. Skrbek²</i> ¹ Institute of Physics v.v.i., ASCR, Praha, Czech Republic ² Technical University of Liberec, Liberec, Czech Republic	23
Localized Micromagnetic Materials Characterization with Point Probes <i>K. Szielasko, M. Sheikh-Amiri, M. Kopp, M. Rabung, I. Altpeter</i> Fraunhofer IZFP, Saarbrücken, Germany	33
Predicting Residual Stress Based on the Barkhausen Noise Measurements: A Neural Network Approach <i>A. Sorsa, K. Leiviskä</i> University of Oulu, Finland	43
Magnetic Nondestructive Indication of Varied Brittleness of 15Ch2MFA Steel <i>I. Tomáš¹, J. Kadlecová¹, R. Konop², M. Dvořáková²</i> ¹ Institute of Physics v.v.i., ASCR, Praha, Czech Republic ² Škoda JS a.s., Plzeň, Czech Republic	55
Wideband Micromagnetic Multi-Parameter Materials Characterization with 3MA <i>I. Mironenko¹, K. Szielasko¹, I. Kiselmann², H. Kopp¹, M. Kopp¹, I. Altpeter¹, G. Dobmann¹, C. Boller¹</i> ¹ Fraunhofer IZFP, Saarbrücken, Germany ² EXECT Kiselmann Hard- und Software, Blieskastel-Altheim, Germany	65
Analysis of the Frequency Band to Derive the Magnetic Barkhausen Noise Signal Using a Configurable and Computer-Aided System for the Simultaneous Measurements of Magnetic Hysteresis Loops and Barkhausen Noise <i>A. Martínez-de-Guerenu, M. Soto, F. Arizti</i> CEIT and Tecnun (University of Navarra)	77
Use of Low Frequency Barkhausen Noise for Inspection of Induction Hardened Rod Samples <i>S. Santa-aho¹, M. Vippola¹, M. Lindgren², A. Sorsa³, K. Leiviskä³, T. Lepistö¹</i> ¹ Tampere University of Technology, Department of Materials Science ² Outotec (Finland) Oy ³ University of Oulu, Control Engineering Laboratory	91
Study of Case-hardened and Nitrided Samples Using Barkhausen Noise Analysis and X-ray Diffraction <i>L. Vrkoslavová¹, N. Ganev², S. Santa-aho³, M. Vippola³, T. Lepistö³</i> ¹ Department of Machining and Assembly, Technical University of Liberec, Czech Republic ² Department of Solid State Engineering, Czech Technical University in Prague, Czech Republic ³ Department of Materials Science, Tampere University of Technology, Finland	105
MBT Applied to NPP's Model Materials <i>J. Degmova¹, V. Krsjak²</i> ¹ KJFT FEI Slovak University of Technology ² JRC-IE, Joint Research Centre, Institute for Energy	115

- A Validation of Barkhausen Noise Inspection Through Chrome Plating Using Temper Etch Inspection** 121
J. Whitmer, J. Hanson
USA
- Analysis of Surface Integrity After Grinding and Hard Turning Through Barkhausen Noise** 135
M. Neslušan¹, M. Rosipal¹, V. Ochodek²
¹ Department of Machining and Manufacturing Engineering, Faculty of Mechanical Engineering, Slovak Republic
² Department of Mechanical Technology, VŠB TU Ostrava, The Czech republic
- Using of Barkhausen Noise analysis for testing of steel surface after laser heat treatment** 149
L. Krejčová
Department of Material Science, Technical University of Liberec, Czech Republic
- Using X-ray Diffraction and Barkhausen Noise Analysis for Evaluation of Machined Surface Integrity** 155
K. Kolařík¹, N. Ganey¹, J. Malec²
¹ Department of Solid State Engineering, Faculty of Nuclear Sciences and Physical Engineering, Czech Technical University in Prague
² PCS S.R.O, Department of Analytical Services, Czech Republic
- Barkhausen Noise Non-Destructive Testing and Conventional Microstructural Evaluation of Nitrided Layers Created in Steel Cavities** 165
Z. Pokorný¹, V. Hruby¹, J. Malec²
¹ Department of Mechanical Engineering, University of Defence in Brno, Brno, Czech Republic
² PCS S.R.O, Department of Analytical Services, Czech Republic
- The mastering and calibration procedure of Barkhausen noise measurements of camshafts at Scania heavy engine manufacturing** 175
R. Kvist¹, P. Lundin²
¹ Scania CV AB, Sweden
² Stresstech Oy, Sweden
- Stress Measurements in A Rolled Carbon Steel Using Magnetic Barkhausen Noise and Ultrasonic Methods** 181
Y. Ivanova¹, T. Partalin², A. Markovski³, B. Velez⁴
¹ Institute of Mechanics-BAS, Bulgaria
² Sofia University "St.Kl.Ohridski", Bulgaria
³ Technical University-Sofia
⁴ Unitest 07 Ltd, Bulgaria
- Barkhausen Noise Applying in Residual Stress Study of 9 % Cr Ferritic /Martensitic Steels** 191
J. Veternikova¹, J. Degmová¹, V. Kršjak², V. Slugeň¹, R. Hincá¹, M. Petriska¹, S. Sojak¹
¹ Slovak University of Technology, Slovakia
² Institute for Energy, Joint Research Centre of the European Commission, Netherlands
